## Pepper Sauce New Hobby Of M. V. Pugh

M. V. Pugh in Pahokee has several hobbies but his latest one has attracted the attention of many of his friends—raising multi-colored peppers and making pepper sauce not in 57 varieties but 15, different colors and flavors. Pugh, as he is familiarly known to his many, many barber shop patrons started raising pepper plants not too many months ago.

From the small beginning, the tinsorial artist began looking for different kinds and colors of peppers and he has come up with many of varied hues. When they are the proper color he adds the necessary spices and vinegar and puts them up in odd shaped clear bottles, thus making a handsome display on several shelves of his shop.

Pugh, during the foot ball season, is always at home on the loud speaker telling the gridiron patrons play by play happening of the Blue Devils and their opponents. During the summer Barber Pugh is interested in Little League baseball and the many youngsters who go to make up the various competitive groups. However, his latest hobby is something plenty hot and in case you, as a "patron" or friend of his, don't believe it, just drop by his shop and ask for a sample of his latest sauce making effort.

## State Welfare Aid Goes To 5,130 Folks

Thomas E. Penick, Chairman of District 10 Welfare Board of the State Department of Public Welfare, reported that in Palm Beach County 5,130 persons were assisted in the four categories of public assistance for the month of June.

A total of 1,725 persons received Old Age Assistance in the amount of \$88,222.00, 85 persons received Aid to the Blind, totaling \$5,247.00, 813 families, representing 2,452 children, received Aid to Dependent Children in the amount of \$49,687.00, 196 persons received Aid to the Disabled in the amount of \$11,229.00.

In addition 411 children received service during the month, 153 of whom were in foster homes. The total state and local cost for these child welfare services was \$10,775.14.

There were 9 adoption petitions studied for the Circuit Court. These are children placed in homes independent of service through a licensed child placing agency, and the Welfare Board is responsible according to law to make these reports to the court.

Palm Beach County is also represented on the District 10 Welfare Board by the Rev. Paul M. Cassen, Mrs. Helen R. Tedder, Mrs. Helen D. Woodward, West Palm Beach, and Mrs. Doris Sasser, Pahokee.

Miss Marilyn Mock left yesterday with her aunt, Mrs. Eddie Schoeppe and family of Belle Glade, for a visit in the mountains in North Carolina.

## John Dunkle Head Young Democrats

John Dunkle, clerk of the criminal courts, has been elected president of the young Democratic Club of Palm Beach County.

Other new officers are Mrs. Shirley Zalla, first vice president; Charles Adams, second vice president; Miss Ann Bohnon, secretary, and Tim O'Hara, treasurer.

Members of the board of directors for the coming year will be Alvin Zalla, John F. Thomas, Joel Daves; Harry Johnstone II and Doyle Rogers.

## Flood Board Will Meet In WPB Today

The Central and Southern Florida Flood Control District's Governing Board has scheduled its regular monthly meeting in West Palm Beach for today, it is announced by FCD Executive Director G. E. Dail, Jr.

A highlight of the meeting will be the Board's acceptance from the U. S. Corps of Engineers of the first section of Canal 24 plus Canal 23A in the south part of St. Lucie County, near Stuart, built at a cost of \$515,000. A gated spillway which has cost an additional \$418,000, located in the canal near the Sunshine Parkway, will also be taken over from the Corps "for beneficial occupancy" pending its final check-out.

Section 2 of Canal 24, which is costing \$1,220,000, and continues the project across the county, is reported about 25 per cent complete. Dail said an official economic survey had shown that the St.

## 4,000 ACRES \$950,000.00

Another land sale was recorded in the circuit clerk's office on Wednesday that is of interest to folks in the Lake Okeechobee Region. This time it was a tract of approximately 4,000 acres lying north of the West Palm Beach canal and east of Canal Point for \$950,000.00.

Sellers were: Alex Ramey and his wife Ann of Canal Point. Buyers were:

Tokalliga Farms Company  
Chanticleer Farms Company  
Okeechobee Farms Company  
Osceola Farms Company.

Each of the four buying companies is a corporation and no individuals were named. The deed gave their address in care of a law firm in West Palm Beach. The sale was subject to a \$340,000.00 mortgage.

## WEATHER

At U. S. Sugar Plant Field Station at Canal Point:

Date	Ptemp.	max.	min.	Rainfall
June 29	88	70	.87	
June 30	91	71	.00	
July 1	94	69	.00	
July 2	93	69	.91	
July 3	93	68	.00	
July 4	93	68	.00	
July 5	92	69	.00	

Lucie Canal system, on completion, will have the benefit of more than 2-1/2 times its cost.

## Boltons Will Take Three Weeks Rest

Mr. and Mrs. John Bolton will close their popular Boltons Rexall Drug Store in Pahokee Saturday night for a three weeks rest and vacation. While away from Pahokee Mr. and Mrs. Bolton plan to visit several spots of interest but they will also spend some time at Hot Springs, Ark., before returning and opening their store again one Monday morning, August 1.

## "Good Offer" Made On Richlands Rent

Members of the State Cabinet, who comprise the membership on the Internal Improvement Fund board of trustees and handle sale of all state lands, said Tuesday they have a proposition in regard to Richlands, Inc.

They said there have been indications that the cabinet will get an offer from one group of South Florida residents to lease the entire tract for some \$55,000.

The trustees thought that would be a good offer and pointed out they had reserved the rights to turn down any and all bids and could do so to take the lease offer.

Mr. and Mrs. J. P. Parker of Canal Point and Ricky were weekend guests at The Ambassador in Palm Beach. They were accompanied by Mr. and Mrs. Earl Maxson and Mike of Canal Point.

## President Slashes Cuban Sugar Quota

Prospective sugar cane growers in the Lake Okeechobee Region have kept a close watch on the doings in Congress for the past 10 days to see what action that body would take on the Cuban sugar quota. The recent action of the Congress in giving President Eisenhower the power and authority to cut the Cuban quota as he determines best for America, has again stirred interest here where many thousands of acres of cane are growing annually.

Many farmers, who now grow vegetables, have expressed a desire to grow a certain amount of sugar cane if the quota was arranged so it would be possible. Here is what the sugar bill passed by Congress provides:

The President "shall determine... the quota for Cuba for the balance of calendar year 1960 and for the three months period ending March 31, 1961, in such amounts as he shall find... to be in the national interest."

This means power to suspend all or part of the still unfilled 1960 Cuban quota, and to reduce or suspend purchases of Cuban sugar in the first three months of 1961.

Authority to also take from Cuba the 165,000 ton extra quota to which she would be entitled under existing law to make up for anticipated deficits in 1960 production in Hawaii and Puerto Rico. This tonnage would be allocated to the United States producers—if they can produce enough to fill it. Any amounts they can't supply could be purchased from other countries.

The rest of the tonnage taken from Cuba would be divided this way:

To Panama, Costa Rica, Haiti, Formosa and The Netherlands, enough to raise their 1960 quotas to 10,000 tons. (These quotas now are, as low as about 3,000 tons).

To the Philippines, 15 per cent; and the remaining 85 per cent to the so called full duty countries which already have quotas.

The 15 per cent and 85 per cent quotas would apply during the first three months of 1961.

If these purchases were less than the United States needs, the President would be empowered to buy the additional needed amounts from any foreign countries.

On Wednesday of this week President Eisenhower took advantage of the power granted him by Congress and slashed the Cuban quota on sugar. Reprisals by the Cuban government are expected momentarily.

## Urban Renewal Gets Federal Aid

TALLAHASSEE—It was announced recently that the Florida Development Commission will be helped in its planning program by a Federal grant of \$12,500 from the Urban Renewal Administration.

These funds matched by the state will finance a statewide population study which will be extremely helpful to the commission in planning future operations.

## JULY 28 IS DATE SET BY STATE TO SELL PELICAN BAY BOTTOM KNOWN AS RICHLANDS, INC.

Thursday, July 28, 1960, is the date for public auction of 2,595 acres of muck land in Richlands, Inc., according to information made public by the Trustees of the Internal Improvement Fund who handle sale of public lands. The sale is scheduled to be held at the Glades Office Building and is scheduled to start at 10 a. m.

Competitive bids will be received for the sale of 36 separate parcels of the reclaimed lake bottom land, the parcels being in estimated areas of 42 acres to 104 acres, totalling 2,595 acres. Minimum bid per acre has been set at \$453.00.

Parcels included for bidding include easements for existing drainage canals and access, viz: 75 feet each side of centerline of existing canal "A" and 50 feet each side of centerline of existing Lateral Canals. Easement areas are not deductible from parcels nor from purchase prices.

On or before August 8, 1960 the high bidders are required to file with the Trustees of the Internal Improvement Fund a signed state-

ment of bidder's intended use and description of method by which bidder plans to maintain effective water control and drainage, accompanied by certified or cashiers' checks in amount not less than 5% of total price bid as computed using estimated parcel areas shown on map used at taking of bids.

In event bids are rejected check will be returned. If high bids are confirmed by Trustees for deed or contract the sum so paid will be credited to purchase by contract or deed. In event confirmed high bids are not consummated by deed or contract within 30 days after confirmation the bidders' right to purchase under such bids will be subject to forfeiture and the sum paid subject to forfeiture as liquidated damages.

Contract for purchase must be consummated within 30 days after date of confirmation of sale, with payment of not less than one-fourth total estimated purchase price based on parcel areas mentioned above. Purchasers must furnish

survey and legal description by Registered Land Surveyor within six months after sale confirmed. Failure to do so will render contract subject to forfeiture and cancellation.

Contract will be adjusted to conform to surveyed actual area with credit of any over payment based on estimated area. Contracts allow payment of balance in nine semi-annual installments including six per cent interest.

Trustees will provide easement 130 feet each side of centerline of existing Canal "A" between U. S. Levee and State Road 715 for disposition of drainage waters from Pelican Bay tract.

All pumps, buildings, fences and other equipment, including pump and buildings on easement last mentioned are property of Richlands, Inc., Pahokee, Florida and are subject to removal by owner within 90 days after taking of parcel bids. Trustees will assume no liability for any drainage, flooding nor participation in any drainage or water control project.

## Screens, Poison And Sanitation Control Annoying House Fly

GAINESVILLE—House flies do not bite, but they annoy people and animals and may spread diseases, according to J. E. Brogdon, entomologist with the Florida Agricultural Extension Service.

They breed in fermenting animal and vegetable matter and other filth. Screens, insecticides and sanitation are of major importance in house fly control.

Since house flies have been able to develop resistance to most of the newer insecticides, there has been a renewed interest in sanitation in fly control programs. This means getting rid of the breeding places.

Good sanitation should be supplemented with insecticides. Chlorinated hydrocarbon insecticides, including DDT, methoxychlor, lindane, chlordane, dieldrin and others are of little or no value in controlling house flies in Florida, says Brogdon.

Though some resistance has been shown also to organic phosphate insecticides such as malathion, diazinon, Diptex, ronnel and others, these materials are still useful in house fly control programs.

Follow directions on the insecticide label for mixing and applying these materials as residual sprays.

Poisoned baits control house flies in some places where sprays fail, particularly in unscreened dairy barns and in other farm buildings. If properly applied, they can be used in most farm buildings without harming domestic animals.

Ready-to-use dry and liquid baits containing organic phosphate in-

secticides may be purchased commercially. If not available ready prepared, some insecticides may be purchased in the concentrate form and mixed and applied according to recommendations on the container label.

## Turnpike Traffic Sets New Record

FT. LAUDERDALE—Traffic on the Sunshine State Parkway in May showed an increase of 21 percent over the same month a year ago, Thomas B. Manuel, Chairman of the Florida State Turnpike Authority, said today.

Gross income, too, recorded a substantial rise of 14.6 percent, Manuel added.

He pointed out the increases marked the 20th consecutive month in which gains were marked up over the same month in the preceding years.

In May 349,768 vehicles used the Turnpike for a gain of 60,931 over May 1959. The daily average of 11,282 vehicles was 1,965 more than the daily average of May 1959.

Gross income of \$435,299.13 was \$55,398.13 ahead and net income of \$313,915.94 was up \$23,899.21.

For the first two months of the fiscal period which began April 1, gross income of \$952,665.02 was up \$132,304.81 or 16 percent above 1959 figures. Net income for the period was \$715,867.71 and \$81,465.49 above the year ago figures.

Chairman Manuel said that the Turnpike Authority has retired a total of \$7,900,000 of its original issue of \$74,000,000 in revenue bonds, leaving \$66,100,000,000 now outstanding.

## Employment Has Seasonal Spurts

TALLAHASSEE — Seasonal cutbacks in citrus and tourist-related industries caused Florida nonfarm employment to decline 29,000 in May, down to 1,280,800, reports Florida Industrial Commission Chairman James T. Vocelle.

The May estimates showed 44,000 more workers than in the same month last year, a 3.6 per cent gain. All industry groups shared the over-the-year growth except construction, which was 14,000 employees, or 10.9 per cent, below the May of 1959 mark.

"The current estimate of nonfarm employment in May did not show as big a drop as expected as our index of employment, adjusted for seasonal variations, increased two points to 205," said Vocelle.

In contrast to its big over-the-year drop, construction employment was the only industry group to show a May gain, increasing by 200 workers, but considerably less than normally expected at the spring season of the year when building usually is in its peak period in Florida.

Biggest work force reductions in

May came in the service industry group with a 14,500 drop, including 10,900 in hotels, as the winter-tourist season ended and the pre-summer season lull appeared.

Commission economist, Robert B. Beasley, said that while the May downturn in employment was "normal and expected, our growth margin of 3.6 per cent above the year ago figure, is not. In the past 10 years Florida has grown at about seven per cent a year and anything less than this is below par for this State. The decrease in our growth rate began in August of last year and has continued to show a slight drop each month since."

Beasley said, "The primary drag on expansion in this period has been construction. This industry has felt the effects of high interest rates and some overbuilding. The reduced volume of construction is reflected not only in lower employment levels in this industry but also in such industries as lumber, stone, clay and glass products, and fabricated metals."

"In addition," Beasley noted, "all major industry division are experiencing growth rates below the average of the past ten years reflecting a rather general slowing down of growth rates."

The commission figures indicate total unemployment dropped by

1,700 fewer jobless workers in May down to 76,000. However, this was 1,200 above the figure of 74,800 for May of 1959. The decline in unemployment from April was seasonal resulting largely from out-migration. There was also some decline in unemployment in agriculture and among construction workers as employment in this industry began to increase seasonally. Trade and service workers unemployment, on the other hand, increased.

## Democracy Still Is A Vital Force

MIAMI—Speaking at the University of Miami recently, Senator George Smathers told a commencement audience, "Our democracy isn't ready for the rocking chair. We can defeat the Communists, but to do so we must launch a political counter-offensive based on a strategy, not of stalemate, but of victory."

"I see no reason why we placidly ought to accept a world system which concedes initiative to the Communists and leaves us forever on the defensive."

"We need to be as passionately devoted to our form of revolution as the Communists are to theirs."

## Here's what the new $3\frac{3}{4}\%$ interest rate on U.S. Savings Bonds means to you:

**\$3 = \$4** *fourteen months faster than before*

### *The Bonds you own are better than ever, too*

The new  $3\frac{3}{4}\%$  rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4, or \$3,000 becomes \$4,000 in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now—an extra  $\frac{1}{2}\%$  from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

### **More advantages of U.S. Savings Bonds**

**You can save automatically.** Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, remem-

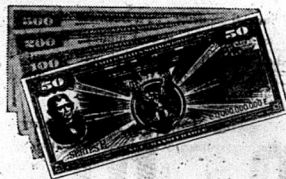

ber, the money you don't touch can't slip through your fingers.

**You can get your money, with interest, when you need it.** Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold them.

**Your savings can't be lost or stolen.** The U.S. Government guarantees to replace your Bonds, free, if anything ever happens to them.

**You save more than money.** The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. And the money you save helps strengthen our nation's economy which depends on the financial strength of individuals to keep it sound.

Start saving with U.S. Savings Bonds today. You'll save more than money.

*You save more than money*  
**with U.S. Savings Bonds**

**The Everglades News**

PAUL RARDIN, Publisher

## Pick your savings target and shoot straight for it!

**A** home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you *before* you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

**For the big things in your life, be ready with U. S. Savings Bonds**

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their periodic donation, the Advertising Council and

Dear Mr. Rardin:

On Monday morning, September 26, 1960, we will hold our Opening Convocation at the University of South Florida. This will be an historic occasion, because this is the first state university to be planned and built, as this has been, from the ground up. The Convocation will start at 9 o'clock and be over by 10. Governor Collins will be the principal speaker. We hope that you can be with us.

Cordially,  
John S. Allen  
President

### Gas Rate Increase Refused By FPC

WASHINGTON — The Federal Power Commission has rejected a request for an increase in the wholesale rate for Natural Gas in Florida on the grounds that such increase is not consistent with conditions in certificates authorizing construction of the pipelines in 1956.

The request was made by Coastal Transmission Corp. and Houston Texas Gas and Oil Corp. of St. Petersburg, both wholly owned subsidiaries of the Houston Corporation.

**DAIRY FARMERS TO MEET** — The Florida Farmers' Federation will hold its annual membership meeting at the University of Florida July 12.

Members of the organization will meet in Dan McCarty Hall at 10 a. m. The meeting will continue through the afternoon.

One of the most important items on the agenda will be the selection of officers for the coming year. Elbert Cammack, Geneva, is the Federation's current president.

### Okeelanta Mechanic Funeral Is Held

Pablo M. Gutierrez, 43, South Bay, died at noon Saturday at St. Mary's Hospital, in West Palm Beach, of injuries suffered two weeks ago in an accident at the Okeelanta sugar mill.

He was a member of the Catholic Church, Belle Glade, and was chief mechanic at Okeelanta mill. He was also president of Sugar Mill Workers Union Local 2152.

Survivors include his wife, Mrs. Carmen Gutierrez, and three daughters, Carmen, Minerva and Maria, all of South Bay; his mother, Mrs. Felicia Montivry Gutierrez, Bronx, N. Y.; three brothers, Bienberido, Ches, and Pedro, all of Brooklyn, N. Y.; and two sisters, Mrs. Georgia Ann Reyes, Bronx, N. Y., and Mrs. Pilarcolon, Bronx, N. Y.

Rosary services were held at 8 p. m. Sunday and the funeral was at 7 a. m. Tuesday, at Forever Glades Mausoleum Gardens, Belle Glade, with the Rev. Xavier Morras officiating.

### Shower Planned For Miss McIntosh

A bridal shower, for Miss Annette McIntosh will be held on July 13 at the home of Mrs. Lloyd Hundley on Bacon Point Road in Pahokee. Miss McIntosh, daughter of Mr. and Mrs. Harry McIntosh, will be married to Sidney Stubbs of Bradenton on August 21.

Hostesses for the shower are: Mrs. Lloyd Hundley, Mrs. Seth Roberts, Mrs. H. S. Barnes, Mrs. Rupert Mock, Mrs. E. F. McIlwain, Miss Jeanine Mock and Miss Jill McIlwain.

Mr. and Mrs. Doyle Branyon were the guests this past week end of Mr. and Mrs. R. T. Smith and her parents Mr. and Mrs. W. S. Cross of Belle Glade.

Pictured Above are William Rhodes, President of University of Florida Alumni Association of this area and Zeke O'Farrell, Group Manager, Southern Bell Glades area. They are looking at a replica of the seven-millionth telephone presented to Dr. Wayne Reitz, President of the University of Florida, in Gainesville.

Miss Mary Ellen Sims of Canal Point plans to leave Saturday for a month vacation to be spent in Georgia and South Carolina.

Mr. and Mrs. Brooks Henderson of Canal Point are spending two weeks vacation with relatives in Kentucky and West Virginia.

### Christian Science Group Of Canal Point

Self-examination and purifica-  
tion of thought are essential to  
spiritual progress. This is a theme  
to be dealt with at Christian Sci-  
ence services Sunday.

Keynoting the Lesson-Sermon  
entitled "Sacrament" is the Golden  
Text from Psalms (139:23, 24):  
"Search me, O God, and know my  
heart: try me, and know my  
thoughts: and see if there be any  
wicked way in me, and lead me in  
the way everlasting.

Citations to be read from "Sci-  
ence and Health with Key to the  
Scriptures" by Mary Baker Eddy  
include (8:28-30): "We should ex-  
amine ourselves and learn what  
the affection and purpose of the  
heart, for in this way only can  
we learn what we honestly are."

Scriptural selections will include  
the following verse: "Create in me  
a clean heart, O God; and renew  
a right spirit within me" (Psalms  
51:10).

### Civil Defense Gets OK By Auditor

TALLAHASSEE—The Florida  
Civil Defense Department received  
a clean bill of health from State  
Auditor Bryan Willis, who stated  
that the agency accounted for all  
the money it received, held spend-  
ing within the budget, and sup-  
ported all expenditures with proper  
vouchers.

"The agency's financial records  
were adequate and well kept,"  
Willis said.

## Success Crowned Miss Fla. Contest

SARASOTA—The most success-  
ful Miss Florida Contest ever stag-  
ed closed at Sarasota recently with  
the selection of Kathy Magda, a  
19 year old brunette from Ft.  
Lauderdale.

The talented young lady won her  
coveted Miss Florida title in com-  
petition with girls from all sections  
of Florida and the judges were  
hard pressed to reach a decision.

Crowning the new queen was  
Nancy Purvis of Bradenton, last  
year's winner.

First runner up was Annette  
Baker of St. Petersburg; second  
runner up, Sandra Guthrie of Mi-  
ami; third runner up, Charlotte  
Joerg of Winter Park, fourth run-  
ner up, Linda Couch of Tampa. All  
of the girls had won titles in their  
own areas prior to entering the  
state contest.

The new Miss Florida attends  
Florida State University and can  
use the 1,000 scholarship award  
given by the Pepsi-Cola Company.  
She hopes to develop a career in  
TV.

A capacity crowd witnessed the  
colorful ceremonies staged at Lido  
Beach and at the Sarasota Muni-  
cipal Auditorium.

### Some Insurance On Autos Is Lower

TALLAHASSEE—A cut in auto-  
mobile physical damage insurance  
rates was authorized last week by  
State Insurance Commissioner J.  
Edwin Larson.

The cuts were ordered effective  
Aug. 1 on new and renewed policies  
and Oct. 1, on other policies regard-  
less of when issued.

Under the order, a physical dam-  
age policy with a \$50 deductible  
collision clause will be reduced  
from \$54 to \$53 a year and policies  
with a \$100 deductible clause will  
be reduced from \$42 to \$37.

Physical damage insurance cov-  
ers losses against collision, fire,

theft and other types of risk.

The reduction will be put into  
effect by some 280 companies  
which write about 63 per cent of  
all the physical damage insurance  
sold in Florida.

Permission to put the rate reduc-  
tion into effect was asked for at  
a June 16 hearing by the National  
Automobile Underwriters Associa-  
tion. A spokesman for the associa-  
tion said that Florida is the only  
state enjoying lower rates for this  
type of insurance.

### Southern Bell Has 17,000,000 Phones

The Seven-Millionth Southern  
Bell Telephone was installed June  
22, 1960. The telephone went into  
service at the University of Flori-  
da in Gainesville. Ben Gilmer,  
Southern Bell's President, made  
the official presentation to Uni-  
versity President, Dr. Wayne  
Reitz, at 11:00 a. m. June 22, 1960  
after which Dr. Reitz placed the  
first call to Governor Collins.

The number of Southern Bell  
telephones increased from six to  
seven million in only 22 months,  
compared to the 28 months it took  
to add the previous million.

It was 50 years before Southern  
Bell reached its first million tele-  
phones. And 10 years ago there  
were only 3,000,000 Southern Bell  
telephones. In the past decade, the  
number of telephones has more  
than doubled.

Altogether, Southern Bell now  
operates in 1,114 exchanges and  
employs more than 65,000 people.  
Seventy-five of these exchanges  
are in Florida and are operated by  
over 13,000 employees.

## THE U. S. TREASURY SALUTES YOUR BANK...

One of the 14,000 selling  
"Shares in America"

More than 14,000 banks from coast  
to coast each day perform an out-  
standing service for their custom-  
ers, their community, and the na-  
tion by selling Shares-In-America  
... U.S. Savings Bonds.

Every family benefits, every com-  
munity profits because of bank-  
ing's leadership in promoting this  
all-American thrift program. To-  
day, 40 million Americans own  
more than \$42 billion worth of  
U.S. Savings Bonds.

Today Bonds are better than ever.  
Every Bond bought since June 1,  
1959, now pays 3½% at maturity.  
Even your older Bonds will earn  
an extra ½% from June 1 to  
maturity.

Chances are your banker encour-  
aged you to buy your first Savings  
Bonds. The next time you visit  
your bank take time to thank him  
for his good advice, and buy an  
extra Bond while you are there.

When you buy U. S. Savings Bonds  
you save more than money

# New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones you own now are better than ever*

**Q:** How does the new  $3\frac{3}{4}\%$  interest rate benefit me?

**A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to  $2\frac{1}{4}\%$  for the first year and a half; then a guaranteed 4% each year to maturity.

**Q:** When did the new rate become effective?

**A:** June 1, 1959.

**Q:** Does the new rate change the Bonds I bought before June 1, 1959?

**A:** All older E and H Bonds pay more now—an extra  $\frac{1}{2}\%$  from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

**Q:** Will the Bonds I own automatically earn this new rate?

**A:** Yes. You don't need to do a thing—just hold on to your Bonds.

**Q:** When my E Bonds mature, will they keep on earning interest?

**A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

**Q:** With the new interest rate, should I cash in my old Bonds and buy new ones?

**A:** No. The automatic  $\frac{1}{2}\%$  increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

**Q:** How are series H Bonds different from series E Bonds?

**A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

**Q:** In what denominations can I buy series E and series H Bonds?

**A:** E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

**Q:** How safe are U.S. Savings Bonds?

**A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

**Q:** What if my Bonds should be lost, stolen or destroyed?

**A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

**Q:** Where can I buy Bonds?

**A:** Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

**Q:** How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

**A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.
